Everybody Snap Your Fingers With Me

Words by BERT KALMAR
Music by HARRY PUCK

Have you seen the craze of singers
If you chance to stray into a

now-a-days, A very fascinating sort of trick, slick,
cabaret, You'll find that you are swaying with the crowd, proud,
You can see them do it in a dozen ways,
Just because you've learned to snap the same as they,

Something I can teach you mighty quick,
Do when they are snapping good and loud,

up your ears and open up your eyes,
doesn't take a penny from your purse,

after I have helped to put you wise,
get together and we'll all rehearse.

Everybody Snap
CHORUS

Do it with me, Do it with me, You'll

learn it quicker than you did your A, B, C, Get a syncopated melo-

dy and hum, Place your middle finger up against your thumb, and let it

snap, snap, snap, snap, Now you know just what I
mean, Let's try it, but, Do it with me, Do it with me,

Do it all together, now when I count three. One, get ready,

two, hold steady, Three, now let her go, so, Snap, snap,

snap, snap, Every-bod-y snap your fin-gers with me. me.
