Like doves a-coo-in' They'd start-ed, woo-in' So co-sy seat-ed
It makes 'em wear-y They aint so cheer-y As in the sun-light's
side by side Said she "To spoon a-right We need a
gold-en ray It takes the fun a-way To have the
moon-y night? Then smil-ing-l y her beau re-plied:
sun a-way So for a real hot time I'll say:

Chorus
I like the day-time better than the night-time — I like the sun-light

better than the moon-light, For when it's time for me to spoon I'm not a

loon to croon By the light of the moon I like the daytime better than the nighttime I've heard that owls make love in trees at nighttime I know a man who won a girl at midnight

The sun will always give you such a bright time Making its ray a perfect day-time is the right time One kiss at noon brings weddings He found that she was married in the day light I want to see what's wished on
